CTY Assignment 2

Part 1
https://wandr.studio/bad-website-design/
https://www.websaucestudio.com/avoid-web-design-mistakes/
https://www.mockplus.com/blog/post/bad-web-design

1. Keep web pages clean and free of distractions
2. Ensuring colors and clear and legible
3. Make sure navigation is understandable and easy to follow
4. Keep styles consistent and don't deviate from schemes
5. Keep some whitespace
6. Do not give too many choices at the same time
7. Avoid design that creates too much space

Part 2
https://berkshirehathaway.com/

- too much space
  - Makes site structure hard to follow
- purpose is unclear
  - Difficult to navigate around site to fulfill intentions and can cause user to lose interest
- stylistically outdated
  - Tacky style doesn't engage or create visual excitement

https://www.uat.edu/

- difficult to locate critical elements
  - Can't get to parts of the site the user needs to find
- unintuitive design
  - Audiences not necessarily well versed with the internet may be confused by the unconventional side scrolling system

https://www.art.yale.edu/

- disorganized color palette
  - Visually confusing and jarring, no color-based categorization
- difficult to read text
  - Content unrecognizable and discourages reading the website text carefully
